See attached.

9. Proposed use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing well, submersible pump, pipeline, and pond system.

12. Estimated cost of works N/A

13. Estimated time required to construct works Constructed - see Well Log #69463

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):
(Failure to provide a detailed description may cause a delay in processing.)

Production from the well under Permit 43685, known as the "US 395 Highway Well", has declined in recent years, and the installed pump and motor are no longer operational. The low well production does not justify the cost of the replacement of the pump and motor. This application proposes to move the water rights under Permit 43685 to the Indian Hills GID primary QM well, known as the Brown's Well, in order to preserve the District's current total combined annual QM duty of 547.5 mga from all ground water sources.

16. Miscellaneous remarks:

Upon approval of the change permit, IHGID will plug and abandon the existing well under Permit 43685 in compliance with DWR requirements.
